

Vision Building Teachers' Survey

In order to guide the development of projects in the future, it is important that we as teachers first work towards creating a shared vision for what we hope to accomplish in our school that addresses and accounts for the issues and concerns that our school faces and the hopes and desires of our teaching staff. Please answer the following questions honestly. Results will be compiled and used as talking points in a future vision building workshop.

Your participation is 100% voluntary and you are welcome to answer anonymously. Thank you for your candor!

What is your dream for our school?

What would you like to see change at our school?

What kind of program do we want to create?

What do you see as the school's major issues or problems?

What do you see as the school's major strengths and assets?

What do you think should be the purpose of this school?

How will our school change if we are successful in this project?
